TEETH EXTRACTED WITHOUT PAIN.

If you want teeth extracted, remember our Vitalized Air is the only anæsthetic that makes it absolutely and positively painless in every case. We have used it over 100,000 cases in the past five years and always with perfect satisfaction. Small children, aged people, feeble and nervous people may come to us with absolute confidence that they will not be hurt in the least, no matter how bad their teeth may be. A painless operation is the one thing everybody most desires in extracting of teeth; but freedom from pain is no more essential than the use of aseptically clean instruments, which prevent any possibility of infection. This means safe dentistry, and safe dentistry is the kind you want.

Our Motto: "Painless Dentistry," "Warranted Work," "Moderate Charges."

Report of Superintendent of Schools

FOR YEAR ENDING MARCH, 1898.

In making this report of our schools and the progress made during the past year, I am able to say that on the whole the results are very satisfactory. In some schools the work done was excellent, while in others it was not so good, for which it seems the parents and scholars themselves are to a large extent responsible. When scholars go to school with the determination to advance in their studies, and make that their chief object, the result is more satisfactory than if they go simply to have a good time and find fault with the teacher.

From Young's Government Class Book we quote "The prosperity of a state or nation depends essentially on the education of its citizens. Ignorance tends to make men idle and vicious,—if people are not properly educated, they are incapable of self-government." We all know what is true of a state is true of the individuals that compose it. A liberal education is the best possession a person can have.

While the work done in our schools is good, let us not be content with that, but do all we can as voters, to make it better.
